STREAMLINE YOUR TEAM COMMUNICATION TO MAKE WORK HAPPEN ANYWHERE

Zoho Cliq simplifies your team communication with organized conversations, easy-to-find information, and connections to the tools you love. Work together, no matter where you are.

Bring people, actions, and everything else that matters, together in one place.

Group collaboration, made simple

Transform ideas into reality with your team. With channels, your team communication is visible, transparent and efficient.

Searchable conversations

Search for messages, find files shared in a conversation, or look up a user — find what you're looking for, right when you need it.

Your team is one tap away

No matter where you're working from or what device you're working on, you can jump onto a voice or video call and stay connected.

Never forget a task or meeting

Your day-to-day tasks and calendar schedules are available right where you collaborate.

Centralize your workflows

Empower your team communication by collaborating intelligently. Custom build bots or create command shortcuts on the Cliq platform and automate your day-to-day activities.

Data security

Our top-notch security system, with data encryption and secret chat, is here to make sure your organization data is always safe.

WORKING REMOTE? WE'VE GOT YOU! THE EASIEST WAY FOR REMOTE TEAM COLLABORATION.

01.Check in to work and see your team

Directly check-in to work from Cliq and see how many from your team are already at work, who's away, and who's currently in a meeting.

02.Instant virtual meetings

Hop on a quick group video call and interact with your co-workers, brainstorm or just hangout with a cup of coffee!

03.Share ideas on whiteboard

Use whiteboard to draw layouts and map out the structures — right inside your chat window. Once done, you can share the board in chat as an image.

04.Raise the bar for team mobility with screen sharing

Sometimes a call or a text isn't enough. Share your screen to discuss ideas and show what you're working on currently and make the most out of every call.

**Business communication software that makes it easy to collaborate,
no matter what team you run.**

Software

Plan, collaborate in channels, set up automated bot alerts about continuous build updates and ship your projects faster.

Marketing

Drop files or images about your next big idea, directly from your cloud storage into a channel to get your team's opinions.

Tech Support

Bring teams together to resolve questions faster and create happy customers. Integrate your tools to stay notified of issues right inside chat!

Operations

Replace time-consuming meetings with spontaneous conversations, automate reports to manage your business smoothly.
